About Dr YS Parmar University of Horticulture and Forestry

Dr YS Parmar University of Horticulture and Forestry, Solan, was established on 1st December, 1985 with the objective to promote education, research and extension education in the fields of horticulture, forestry and allied disciplines.

The University is located at Nauni in Solan District of Himachal Pradesh, 13 km from Solan on Solan-Rajgarh Road, at an elevation of 1300 metres above mean sea level. Solan town is situated on national highway (NH-5) and is well connected by train and bus services.

The University has four constituent colleges, out of which College of Horticulture and College of Forestry are located at the main campus. The third College i.e., College of Horticulture & Forestry is located at Neri in Hamirpur District on Nadaun-Hamirpur state highway, about 6 Km from Hamirpur town and is well connected with bus service. The fourth college i.e. College of Horticulture and Forestry, Thunag (Mandi) is located at Thunag District Mandi. This college offer BSc (Hons.) Horticulture and BSc (Hons.) Forestry degree programme. In addition, there are five Regional Research Stations, 12 Satellite Stations and five Krishi Vigyan Kendras (KVKs) situated in different zones of the State.

Hon'ble Vice Chancellor's Message

Dear Recruiters

Warm Greetings from Dr. Yashwant Singh Parmar University of Horticulture and Forestry, Nauni, Solan (HP)

Dr. Y.S. Parmar University of Horticulture and Forestry, Nauni, Solan has always been committed to excellence in education, research, and professional development. As a premier institution in the field of horticulture, forestry, and allied subjects, we take immense pride in shaping the next generation of leaders and innovators who will drive sustainability and growth in these crucial sectors. We take great pride in developing highly skilled, industry-ready graduates who are fully equipped to address the dynamic challenges of the rapidly evolving agricultural and environmental sectors. We have consistently aimed to equip our students with not only cutting-edge academic knowledge but also practical skills that ensure they can contribute effectively in real-world situations. From hands-on fieldwork to rigorous academic training, our students are ready to step into the workforce and make meaningful contributions from day one.

Prof. Rajeshwar Singh Chandel
Vice Chancellor

Our students possess strong technical knowledge, problem-solving abilities, leadership skills, and a commitment to sustainability, making them an asset to any organization in the agricultural, environmental, and agribusiness sectors.

We invite you to visit our beautiful campus, engage with our faculty, and interact with our talented students. This is not only an opportunity to discover the potential of our graduates but also a chance to establish a long-term partnership with our university, which continues to foster academic excellence, innovation, and industry collaboration.

We sincerely appreciate your consideration of this opportunity and look forward to the possibility of a successful and fruitful collaboration with your esteemed organization.

Thank you for your time and consideration.

Our Students

Dr. Y.S. Parmar University of Horticulture and Forestry equips its students with a broad range of technical, practical, and soft skills that prepare them for success in the horticulture, forestry, and agricultural industries. Our students possess a unique blend of knowledge, hands-on experience, and professional capabilities. Here are the key skills that our students develop during their academic journey.

Key Skills of our students

- Technical and Domain Expertise
- Research and Analytical Skills
- Practical and Field Experience
- Problem-Solving and Innovation
- Communication and Teamwork
- Leadership and Management Skills
- Adaptability and Global Awareness
- Ethical Practices and Social Responsibility
- Community Engagement

These key skills ensure that our students are not only highly capable professionals but also responsible and innovative leaders in the fields of horticulture, forestry, and sustainable agriculture.

Molecular Biology & Biotechnology

Diploma Programmes

I. College of Horticulture
1. 1-year Diploma in Fruits, Vegetable Processing & Bakery Products

Placement and Internship Procedure

Industries/Organizations interested in recruiting students from the university reach out to the Assistant Director (Training and Placement) through email or phone. The company expresses interest in participating in the placement process and provides details about the roles they are offering. Placement officer and the representative of the company schedules a mutually convenient date for the campus visit and selection process. Companies and the Placement Office will agree on a specific date based on the company's availability and the university's academic calendar. On the agreed-upon date, the company representatives visit the University for the Campus Recruitment Process. This typically includes:

- **Pre-placement Talk:** The company provides an overview of their organization, the roles offered, job responsibilities, and career growth opportunities.
- **Written/Online Tests:** If required, the company may conduct written tests or online assessments to evaluate candidates' skills and knowledge.

After the initial assessments (if applicable), shortlisted candidates are invited for personal interviews. The interviews may be conducted in a one-on-one format or as group discussions, depending on the company's recruitment process. After completing the interview process, the company selects candidates for the offered roles. The company submits a list of selected students to the Assistant Director (Training and Placement). If needed, a waitlist can also be submitted.

Placement Cell

Our **Placement Cell** is a dynamic and dedicated team that works tirelessly to bridge the gap between students and the industry. The placement team ensures that students are equipped with the necessary skills and resources to embark on successful careers after graduation.

The Placement Cell not only focuses on providing employment opportunities but also offers career counseling, skill development workshops, and guidance throughout the job application process.
